Future innovation
G&G always brings you the most innovative products. Not only do we make replicas of real steel, but also do we push our R&D to develop more features and ergonomic designs to meet a variety of demands from end users.
Finest quality
G&G offers industry leading manufacturer warranty coverage. We stand behind our product quality and test every single rifle before shipping.
FAST SERVICE
We have dedicated professional employees working daily to ensure that all enquiries are responded in a timely manner.
Warranty claims are dealt with within 24 hours by our customer support department.
FREE ITEMS
G&G offers a variety of free items to its customers and will continue to release new giveaways more frequently. We always offer a variety of promotional materials for events and sponsorship to help and support the airsoft community.
FAIR PRICE
Customer satisfaction motivates G&G. Our products offer the best value to our customers, and we never cut corners to build our products.

Please use quality batteries with the CE approval to avoid any unnecessary damage on the product.

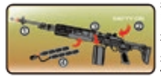
Please use the recommended battery in the manual. The use of a battery with a different voltage may damage the product.

Remove the battery from the product when not in use.

Do not wet or incinerate the battery, nor deform the connector.

You may be liable for damaging public or personal property or for injuring a person or an animal even if you only meant to shoot as a "practical joke". Always observe good manners and enjoy fun sport shooting.

When you carry the air gun, attach the safety cap, set the selector lever to the safety position and always put the air gun in a case or bag.



Safety procedures:
1.Attach the safety cap to the muzzle.
2.Set the selector lever to the safety position.
3.Remove the magazine.
4.Remove the battery.

Select a safe place for operating the air gun,avoid places where people and cars are around.

When shooting the air guns for target practice or in a game situation, You and all participants must wear safety goggles or other eye protective gear. Also pay attention to ricochet. It is very important to pay attention to third parties other than the participants.

Always attach the safety cap to the muzzle, remove the battery, and store the air gun in a case or bag at a place that is out of reach by children.

Never direct the muzzle towards a person, animal, or any direction that may cause harm to a third party.

To protect the product's internals from dust, accidental BB discharge, and general accidents, put the barrel cover and safety cap on the muzzle, except for when you are shooting. Never pull the trigger while the barrel and the safety cap are attached.

Looking into the muzzle is extremely dangerous regardless of whether BBs are loaded or not. If you are hit in the eye by a BB pellet, you may permanently lose your eyesight.

Activating the trigger carelessly is extremely dangerous. Never put your finger on the trigger unless the safety cap is removed and you are ready to shoot a target.

There may be cases where some BB's remain in the gun after the magazine has been removed. After removing the magazine, direct the muzzle towards a safe direction and pull the trigger to confirm that there are no remaining BBs in the gun, then attach the safety cap.

Disassembling or modifying the gun may adversely affect the performance and make it dangerous. It may be against the Law.

(ADVANCED GT G2 series)
Under GT flag, G2 technology is featured in G&G's latest advanced gearbox that is preinstalled with the G2 ETU, featuring power cut-off safety and a MOSFET with a user friendly warning sound system.

(AIRSOFT GUNS CM series)
High quality polymer receiver and budget-friendly product.
The Combat Machine has proven to be the number one seller in the world.

(ADVANCED GT series)
Best realism and Innovation.
The highest quality product line of G&G.

(INTERMEDIATE GC series)
Best economical choice.
High quality AEG of G&G.

(AEG Blow Back System)
A piston driven, air operated mechanism to simulate bolt actions that utilize compressed air to push the bolt without adding extra stress to the gear box.

Q: There are many Airsoft manufacturers in the world; why is G&G Armament the ideal choice for Airsoft Products?

A: Competitive products require a high standard in quality control. In order to provide trustworthy and high quality products to users, G&G Armament never stops correcting, adjusting and testing our products before release. G&G Armament is also the only manufacturer with the ISO 9001 quality control standard certificate. The ISO 9001 is the international quality control standard, adapted in many other industries and organizations.

A: The ISO 9001 is not our only international acknowledgment. An online survey conducted by **UK magazine Airsoft International** also lists G&G Armament as **the best Airsoft Manufacturer**; this honor was voted in by users and we are proud to share this honor with all Airsofters.

A: **FIRST U.S. MILITARY SCHOOL** ADOPTED G&G PRODUCTS AS THEIR **CADET TRAINING RIFLE**. **G&G** IS UTILIZED BY THE U.S. MILITARY DUE TO ITS HIGH QUALITY AND RELIABILITY.

2001 By targeting the overseas market and combining our experience in part manufacture and design, we were able to attract enormous attention from all over the world with our quality products.

2004 The first G&G Armament completely self-made replica arrived on the market, generating much excitement.

2007 G&G invented the unique pneumatic blowback system, a design that we have registered for patent in multiple countries.

2008 To better satisfy the needs of worldwide Airsofters, G&G established its second factory in Changhua, Taiwan.

2013 G&G became the only Airsoft manufacturer passing the ISO 9001 - which further proves G&G as a company that has quality management and production system.

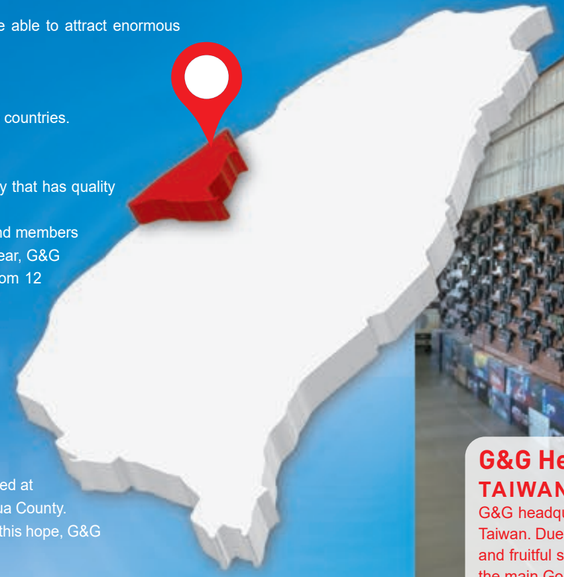
2015 Taiwan Airsoft & Airgun association was founded by Chief Executive Officer of G&G Armament James Liao and members from Airsoft guns manufactures. James Liao was elected to be the first President of TW A.A.A. In the same year, G&G organized the first G&G World Cup Extreme Shooting Competition in Taipei with the contestants coming from 12 different countries.

2016 G&G started carrying out the self-made gas blowback pistol project to celebrate 30th anniversary.

2017 The first in-house design gas blowback pistol GPM92 was released. The second G&G World Cup Extreme Shooting Competition was organized in Taipei with 60 contestants from 25 countries.

2018 「道(TAO)氣(CHI)真(JEN)實(SHIH)」Four core values of new technology for GBB pistol, being the most innovative product in the market.

2019 G&G Armament is proud to announce that the production of our next generation pistol, the GPM92 GP2, started at 9:09 am on 9/9, 2019 from our head quarters located at No. 999, Zhonghua Rd., Shengan Township, Changhua County. We chose this particular date and time as the number 9 is a very special and lucky number in our culture. With this hope, G&G wishes that the new GPM92 GP2 GBB pistol will bring another peak in the global market for G&G.



2020 Debuted the invisible-light electronic target system.

2021 The new G3 gearbox was announced, becoming the first split gearbox design in the G&G family of AEGs.

2022 World patented CHFS & FCCM released.

2023 Multi-stage Adjustable Top-Down Hop Up Chamber.

G&G Headquarter

TAIWAN CHANGHUA

G&G headquarters is located in Changhua county, the central part of Taiwan. Due to the location, Changhua is well known for its agriculture and fruitful soil. It is also the center of many manufacturers, including the main Google data center of Asia.

LOGO Design

The logo represents our company's corporate brand spirit to the world. Our high self-expectations, service philosophy and industry are incorporated into the logo in the hopes that it will stick in consumers' minds. The meaning of the logo is detailed below.

Polearm: Weapon used for assaulting and stabbing enemies in ancient warfare.
Shield: Armament used for protection against enemy attacks.
Polearms and shields were both used in Western and Eastern battlefields. In modern times, warfare has evolved into more accurate and longer ranged assault rifles and armor.
As one of the leading manufacturers of Airsoft guns, G&G Armament strives to bring quality and innovative products to our customers.

Stars are one of the most common grades to evaluate performance worldwide. We double check our quality control to ensure it exceeds the industry standard.
In addition, G&G Armament offers multilingual customer service. Our 36/ 24/ 36 service is our highest principle in customer service, which includes providing services for 3 different Airsoft operating systems in 6 different languages, we respond within 24 hours from email inquiries and ship products in 36 hours after payment has been completed. Our mission is to provide every customer with the highest level of service.

Front and center is our core value of G&G Armament representing quality. We always challenge ourselves to develop the best technology and bring the highest quality to be a leading manufacturer in the airsoft industry. The flame represents the passion and dedication we have in every product we make.

Each star represents a family member that has laid the foundation of what G&G Armament stands for today. The strong family bond is what makes G&G Armament a friendly and approachable company to our customers. We treat every customer as they were our own family member and build a long lasting relationship. The five family members create a five star symbol which signifies a five star general. Similar to a general, G&G Armament leads the airsoft industry with the help of our customer's feedback and suggestions.

We have G&G Armament written on the bottom to signify the origins from where we started from and the top lettering to represent how we became a top airsoft manufacture.

Corporate Color

Consumers have a very direct impression of product colors. That's why G&G's choice of corporate colors took into account people's visual perception and psychology of colors. Association by experience and by biology was then incorporated to come up with the four following colors as our corporate colors.

Red Pantone: 186C CMYK : 0.100.100.10

Red is a passionate, aggressive, and powerful color. The G&G Armament red ring symbolizes the ongoing passion and strong commitment we have to our products and customers. G&G Armament always interacts with our customers and always offers the most competitive products and challenging shooting events.

Black Pantone: Black C CMYK : 0.0.0.100

A black belt in martial arts signifies the level of competence. The inner black ring symbolizes the quality and reliability our products have. Over time we have mastered our products to be the most reliable airsoft guns in the industry. By listening to our customer's feedback, we have perfected reliable and reputable guns.

Blue Pantone: 285C CMYK : 100.45.0.0

The color signifies royalty, trustworthiness, intelligence, confidence, and innovation. We use blue to display our newest technologies on products that enhance our customers' experiences. As a front runner in the Airsoft industry, G&G Armament continues to bring our customers reliable products that will last for years to come.

White Pantone: White C CMYK : 0.0.0.0

White signifies purity, sanctity, simplicity, and fashion.
G&G Armament' s simple approach to having the highest quality control possible has distinguished us amongst our competition. We' re viewed in high regard by the Airsoft community as being a dependable Airsoft manufacturer. We take white into our logo design to feature the symbolism of the color.

G&G BRAND — G&G Quality, best product value.

THIS IS PAI

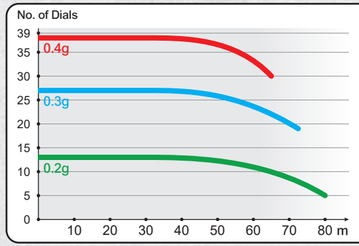
G&G Armament's Patented Hop-Up Chamber Design Explanation

The Hop-Up Chamber is the core component of the Airsoft gun's ballistic accuracy and range. G&G Armament's latest Hop-Up Chamber launched this year is different from any other product on the market and can be used with various weights of BBs—up to 0.4g—and still achieve optimal trajectory and range. The main visual design of this patented Hop-Up Chamber is pictured below:

The central graphic depicts the core parts of the patented Hop-Up Chamber. The planetary icons (Sun, Saturn, and Moon) represent the mechanisms of planetary movement. The differences of masses between each celestial body reflect the range of BB weights, while their varying orbital speeds relate to the BB rotation speeds as different masses passing through the Hop-Up Chamber. At the bottom of the outer ring, the **P.** stands for Precision. The unit associated with P is 0.019, which describes the distance in millimeters that the top-down piece moves with each dial adjustment. The core parts are meticulously designed for the extreme fine-tuning capabilities of this new Hop-Up Chamber. **A.** stands for Accuracy, with 39 being the total number of dial adjustments that can be operated, granting the most accurate ballistics possible using this new system. Lastly, the **I.** stands for Innovation, with 0.74 representing the total travel distance in millimeters (0.019mm x 39 dials), demonstrating the innovation of this design through very precise parts with fine tuning features to achieve the most optimal performance.

The combination of the three initials is **PAI**, similarly to the circumference ratio, Pi (π). π not only best describes the round shape of BBs, but also best describes the concepts and functions of this patent.

***Only perfect roundness with 5.95mm diameter BB pellets paired with PAI patented Hop-Up chamber can achieve the best range and accuracy, choose G&G high quality BBs for the optimal performance.



BB Weight	No. of Dials to reach straight trajectory
0.4g	38 Dials
0.3g	27 Dials
0.28g	24 Dials
0.25g	19 Dials
0.2g	13 Dials

STP45 PRO SERIES

NEW

STP45 PRO 8"
GAS-STP-P80-BBB-ECM

LENGTH / 203 mm
WEIGHT / 820 g
MAGAZINE / 30 Rounds
INNER BARREL / 104 mm

Adjusting tool stored in front

Adjusting PAI HopUp

Adjusting trigger sensitivity

Designed for PROS—dot sight ready, lightening-cut CNC-machined aluminum slide, and CNC-machined middle frame—heightening durability and performance. Serration at the front and rear slide provides a better grip when racking the slide. Patented Hop-Up unit gives you the most accurate ballistics from 0.2g to 0.4g BBs. The adjustment tool is hidden inside the recoil spring guide used for both the trigger and Hop-Up unit, providing easy access and lightning-fast adjustment without disassembling the slide or multiple tools. The STP45 PRO series are available in 3 different lengths and are highly compatible with Marui parts.

GAS CO_2 METAL CERAKOTE

*Cerakote excludes STP45 PRO Macaron Blue.

LevAR is a gas powered, modular, single shot lever action platform that is compatible with G&G AR-style AEG upper receivers. This compatibility extends to the AEG Hop-Up unit and inner barrel, expanding the upgradability of this replica. The LevAR comes with a standard 35 round short magazine, but it can take any M4 AEG magazine or even a drum magazine if the situation requires it.

EVOLUTION SHOTGUN BULLPUP 10-ROUND

NEW

ESG B-10
GAS-ESG-B10-BBB-ECM

LENGTH / 560.4 mm
WEIGHT / 3140 g
MAGAZINE / 105 Rounds
INNER BARREL / 200 mm

The ESG B-10 is the Evolutionary Shotgun, Bullpup-style. The ESG B-10 features a single barreled shooting 5 or 10-rounds at a time, uses M4 AEG magazine, and is powered by green gas through its internal reservoir. A CNC and hard-anodized aluminum handguard comes with two M-LOK slots at the 3 and 9 o'clock positions and provides you with the flexibility to mount multiple accessories. The lower handguard can be removed to reveal the picatinny rail for a vertical grip or a grenade launcher.

GAS-T91-020-BBB-ECM

LENGTH / 806.7 mm
WEIGHT / 3600 g
MAGAZINE / 30 Rounds
INNER BARREL / 350.5 mm

The GTW91 GBB series is the replica of Taiwanese Army issued rifle. With the same weight distribution and control, it is a perfect training tool for shooting. Adapting the MGCR system, this gas blowback rifle offers durability and guaranteed performance. Both 2.0 and 3.0 comes with 3-round burst feature exactly the same as the army standard T91 battle rifle.

ADVANCED GAS Upper Receiver METAL Lower Receiver POLYMER

A CNC and hard-anodized aluminum hand guard comes with M-LOK slot at 3, 6 and 9 o'clock position that gives you the flexibility to mount accessories.

The 4-Position fire control group includes Safe, Fire, 3-Round Burst, and Auto.

The light weight aluminum bolt carrier and reinforced nozzle with double Teflon seals.

INNER BARREL / 510 mm

The L85 A3 is the latest model in the UK's L85 series of military rifles, featuring a distinctive bullpup design. As an upgraded version of the L85 A2, the L85 A3 strengthens the rifle's structure, enhancing its durability and reliability. It also improves shooting stability and operational performance, becoming one of the primary weapons of the British Army.

PATENTED

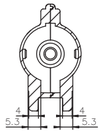
A.D.A.M.
AUTO-DROP ADVANCE MAGAZINE

Lock : Disable Magazine Auto-Drop feature
Unlock Lever : Enable Magazine Auto-Drop feature

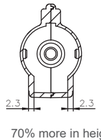
When ADAM magazine is empty, top plate will flip up and drop the magazine out of magazine well.

ADVANCED G2 TECHNOLOGY | AEG | METAL | 8mm | MOSFET | ETU

G2 SYSTEM



G2 GEARBOX



OLD

70% more in height and
74% more in thickness.

1. Double O-ring air nozzle.
2. Thicker padded cylinder head.
(50% thicker compared to previous G&G V2 GB)

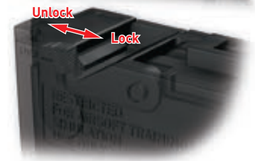
Redesigned bevel gear engagements for better performance. Lower power consumption, less heat generated.

MOSFET

A.D.A.M. AUTO-DROP ADVANCE MAGAZINE

BAMF Magazine 90R Black

When the ADAM magazine is empty, the top plate will flip up and drop the magazine out of the magazine wall.

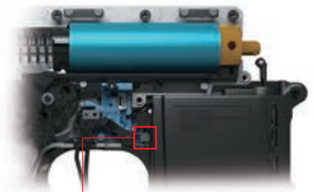


Lock : Disable Magazine Auto-Drop feature
Unlock Lever : Enable Magazine Auto-Drop feature

BOLT LOCK

Warning Sound

[ETU + MOSFET WITH BURST CONTROL FEATURE.]



Power cut-off when magazine is removed from the receiver, this feature will also work with hi-cap magazine or any compatible magazine that would fit into the lower receiver. G2 proprietary mid-cap magazine will activate the power cut-off when the magazine is empty.

ETU + MOSFET with burst control feature. Size of the MOSFET has been reduced by 50% to leave more space in stock tube. The new MOSFET will have a micro speaker to alert player when the battery is low. ETU has been improved for better trigger response and avoid over-press damage.

Ambidextrous fire selector, bolt release and magazine release buttons.

G&G GBB SERIES

MGCR replicas are the first gas blowback rifles developed by G&G. This new line of GBBR offers three different lengths, an aluminum bolt for better gas efficiency and cycling, bolt impact dampening gas tube, and pre-upgraded steel trigger group.

GC SERIES

Inspired by the muscle lines of a cheetah, the GC16 Predator is full of aggressive elements in its design. The unique handguard covering the muzzle of the gun imitates the ferocity of a snarling carnivore. This distinctive look is not only for show - it also provides the longest sight radius possible when using iron sights. The Predator lineup comes with 4 different colors and 2 different receiver grades, but only the GC16 grade features a full metal receiver and ambidextrous fire selectors. The CM16 grade features a lighter weight polymer receiver in a more budget-friendly package, without sacrificing internals and overall build quality.

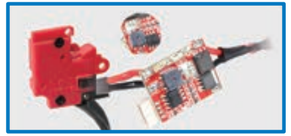
- ***Ambidextrous selector.***
- ***Ambidextrous bolt catch.***
- ***CNC hard anodized QD M-LOK handguard.***
- ***Upgraded Gen.4 MOSFET.***
- ***Folding stock.***
- ***Polymer receiver.***



The PCC45 is installed with an electronic trigger unit (ETU) and G&G's 4th generation in-line MOSFET that features 3-round burst control, battery protection, active braking, and new current control unit to prevent overheating and burning.

The new 8" rail system design on the PCC45 includes a quick-detach lever for easy installation and removal. It features M-LOK sections at 3, 6, 9 o'clock positions, and a picatinny rail on top.
It also has an anti-rotation tab that interfaces with the receiver.

Ambidextrous controls include the fire selector, bolt release, and charging handle.

The quick-change spring guide can be accessed by collapsing the folding stock and removing the backplate of the receiver.

COMBAT MACHINE AIRSOFT GUNS · AEG · POLYMER · 8 mm · MOSFET · ETU

The product includes a Bipod and Fake Bullets.

Our 3rd generation MOSFET inside the CM47 will prevent trigger burns with a controlled current. It will also offer a burst control feature with battery protection and active braking.

The new G&G CM47 is installed with the second generation electronic trigger unit (ETU) for instant trigger response and prevent trigger lock common in traditional trigger switch design.

Bio BB is biodegradable under specific environment (ISO 14855-1)

BB pellets manufactured by G&G Armament are high precision products, compared to that of other manufacturers in the market.
While other manufacturers accept the BB manufacturing tolerance of size and sphere within 0.05mm, G&G Armament strives and reliability produces the most precise BBs, utilizing a manufacturing tolerance within 0.01mm. The perfect surface and precise size provide incredible air-sealing and feeding.
Bio BBs from G&G Armament are well known for their high quality and exacting standards, which prevent any jamming when used in high-precision barrels. 100% Made in Taiwan and highest quality guaranteed.

G&G Armament BB Global Marketing

Our stores and outlets deal directly with consumers and provide the most direct feedback from users. The testimonials and support of players around the world are why G&G's high-quality BBs are sold worldwide.

Real Action / Chile

www.realaction.cl

G & G is a great brand, which stands out for the high quality of its replicas, accessories and bbs, worrying about the perfection of their products, constant innovation and great variety.
It's a brand that goes beyond the sales of their products, is a brand that makes you part of of your family, worrying about your distributors as customers.
Motivates the players and enriches the sport with their world tournaments as worldwide contests, highlighting its great concern for excellence beyond the sale of the products.
G&G boost airsoft worldwide like no other brand.

AirsoftBoden / Norway

www.airsoftboden.no

We have sold G&G BBs and accessories for the last 6 years without any problems. The BIO BBs are always in high demand and are fairly priced for the excellent quality they provide. Always innovative and releases new and interesting products throughout the year.
And a big plus for their wonderful service and help the staff provide to their customers.

Armaq s.a. / Peru

www.armasperu.com

We are using G&G bbs. 0.20 and 0.25, 1 kg. pack. At the beginning we bought other brands, having constantly problem we our replicas 1) Clogged bbs. into snipers guns and 2) faulty bbs. Inside the package.
With G&G bbs we don't have any problem and the feedbacks are very good. The players are very happy with the product.

Hristo Airsoft Trgovina

Croatia

hristo.hr

Good Price , Good Quality : excellent accuracy, no feeding problems.

Power Gun / France

www.powergun.fr www.powergun.fr/terrain/bois

We sell G&G bbs and we sponsor a team on our field with G&G bbs.
We prefer these bbs because they are less expensive and better quality than other brands. And customers using inner barrel Ø6.01 prefer G&G because they never have any clogged bbs.

AIRSOFTZONE / Austria

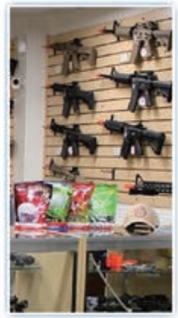
www.airsoftzone.com

G&G bbs feature an attractive price / performance ratio and a very high & stable quality level.
We started to sell G&G bbs more than 7 years ago because it was difficult to find good quality bbs on market. G&G bbs became very popular very fast and they are still our most demanded bbs in our product line. We get very positive feedbacks. Customers always confirm the high precision and quality standard.

Oregon Airsoft Arena / U.S.A.

www.oregon-airsoft.com

We only use G&G bbs inside our arena because they are manufactured to be extremely reliable and the most accurate on the market. There has never been a jam in any of our guns and they have been the top sellers in our pro shop for many years. They are irreplaceable as our go-to bb. We also support the outdoor player and when it comes to reliability G&G has the best Bio BB's. When players think that their gun is having problems most of the time it's because of lower grade Bio BB's. Once we show the customer the difference between brands, they switch to G&G Bio and the problems are gone.
We believe in being the best and selling the best and that is why when it comes to BB's we carry and sell the entire line of G&G BB's.



モケイパドック

Japan

http://www.mokei-paddock.net

High performance & reasonable price.
Most of Airsoft fields are carrying G&G BB,
So it is very famous, and trustable.

41ミリタリー / Japan

http://www.41military.com

G&G BB are highly accurate, and getting supported from not only light users, but also high end,
so it is also suitable for customize model too.

LIBERATOR / Japan

http://liberator.jp/

Quality of G&G BBs are very high & stable, and so many Airsoft user choosing G&G BBs.

E.T.T. ELECTRONIC TRAINING TARGET

The second generation electronic target system now comes with a steel target face with MEMS sensor with 8 different built-in modes for different training scenarios. The sensor will only pick up the specific shockwave when BBs hit the target, preventing misreads or incorrect activations when accidentally bumping into the target.

E.T.T. ELECTRONIC TRAINING TARGET

8 CHALLENGE MODES

Different challenge modes can only be selected when 2 or more ETTs are connected.

1) Competition Mode
After Mode 1 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will stand by with green lights on. When the ETT receives the first shot, the lights will turn red and stay red until reset by pressing the [Start Button] again. This mode is recommended for "quick draw" style competitions.

2) Versus Mode
After Mode 2 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will flash green lights and count down 5 seconds by flashing once per second. After 5 seconds have passed, the ETT will stay green and will be ready to receive shots. After the ETT has been shot, the lights will turn red and stay red until reset by pressing the [Start Button] again. This mode is recommended for "showdown" style competitions.

3) Search & Destroy Mode
After Mode 3 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will stay green and emit sounds. The sounds will stop and the ETT will turn red once receiving a shot. Another ETT will then switch on in a random order when connected with multiple ETTs. This mode is recommended to be set up with multiple ETTs and placed in random locations for shooters to find the ETTs.

4) Practice Mode
After Mode 4 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will stay green and will be ready to receive shots. The ETT with then turn red and emit one sound after receiving a shot. If the range is set up with multiple ETTs, the last ETT will flash red three times and emit a sound after receiving a shot to signal this challenge is over. This mode is recommended to be used in any style of competition when shooters can easily spot each ETT.

5) Random Mode
After Mode 5 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will stay in green and will be ready to receive shots. The ETT will turn red after receiving a shot and another ETT will light up in a randomized order. If the ETT has not received any shots within 1.5 seconds, then the light will shut off and a different ETT will light up in a random order. When the last ETT receives a shot, that ETT will flash red three times and then turn off. This mode is recommended in any style of competition when shooters can easily spot each ETT.

6) Hostage Rescue Mode
After Mode 6 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will change between green and red lights within 1.5 seconds. When an ETT with green lights receives a shot, it will emit a sound then turn off. When an ETT with red lights receives a shot, it will stay red and not emit any sound. If the ETT was connected with other ETTs, and the last ETT was shot with green lights, the last ETT will flash three times and then the challenge ends. To start another run, press the [Start Button] again to reset the game. This mode is recommended in "hostage scenario simulation" style competitions.

7) Time Bomb Mode
After Mode 7 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will change from green to red then turn off after receiving a shot, then randomly switch on another ETT if there are multiple ETTs in the system. If any ETT has not received a shot within 3 seconds, then the ETT will turn red and stay red to signal that this challenge is over, until reset by pressing the [Start Button] again. This mode is recommended in "extreme time limit" style competitions.

8) Twins Mode
After Mode 8 is selected, press the [Start Button] to start the challenge. In this mode, two random ETTs will stay green and will be ready to receive shots. These two ETTs must both be shot within 1.5 seconds, or they will switch to any other two ETTs randomly. When the last ETT receives a shot, it will flash three times with red lights to signal that this challenge is over. This mode is recommended in any style of competition if there are two or more shooters.

QUAD MODE 3X3 ETT TARGET SYSTEM

Electronic Training Target (ETT) is programmed with multiple modes for users to experience different challenges and train for response time and accuracy to make shooting targets a more engaging sport.

QUAD MODE 3X3 ETT TARGET SYSTEM
(TIMER EXCLUDED)
G-11-173 **(75x127x61cm)**

雙人競技 牛仔對決

遊戲方式：先決定競技者的目標靶顏色，分別為綠色及紅色。按下啟動鈕後，目標靶會開始倒數3聲，倒數完會立即啟動2個不同顏色的電子鋼靶，擊中後下一個靶才會啟動，首先擊中5個靶的玩家獲勝。

Double Rodeo Cowboy Duel

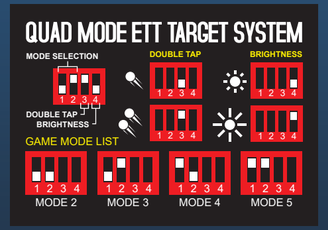
HOW TO PLAY: Each player chooses their color, Green or Red. Press down the [Start] button, then electronic target will start countdown with 3 audible sounds and 2 targets will light up in different color after the 3rd sound. The next target will only be activated after previous one has been hit.
First reach 5 targets wins the game.

ダブル ロデオ カウボーイ デュエル

遊び方：各プレイヤーは自分の色（緑または赤）を選択します。［スタート］ボタンを押すと電子ターゲットがカウントダウンを開始し３回音が鳴ります。３回目の音が鳴った後、２つのターゲットが異なる色で点灯しますので、自分が選択した色のターゲットを射撃します。どちらか早い方がヒットとなります。１つ目のヒットが終わると次のターゲットが点灯しますので同様に射撃を行います。これを繰り返し行い、最初に５つのターゲットに到達した方が勝ちとなります。

Specially designed for Mode 2 - Double Rodeo Mode with instructions in 3 languages.
Double tap function can be set, where a single target needs to be hit twice to turn off the light (only applicable to Modes 3 to 5).

CHART DESCRIPTION



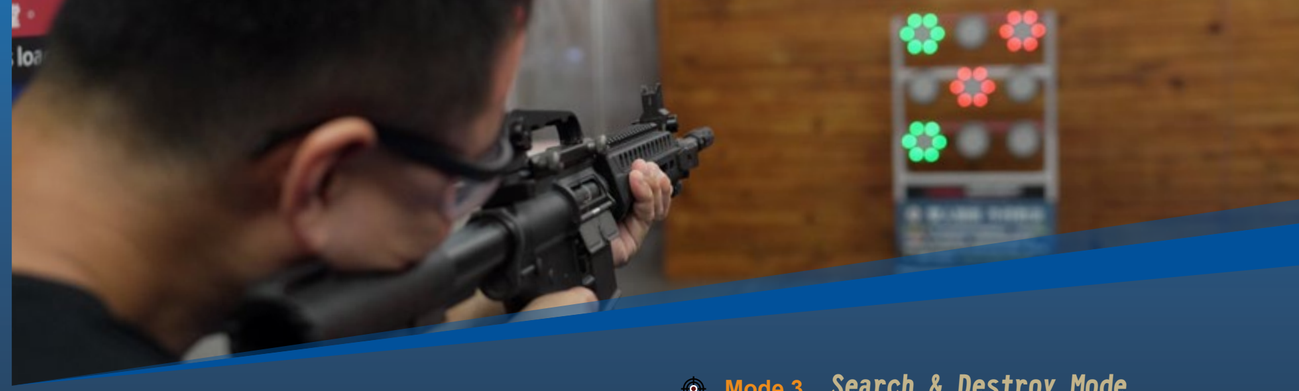
DIP switch description :

No.1,No.2 : MODE SELECTION

No.3 : DOUBLE TAP

Note: Double tap function is only available in mode 3/4/5. The order of display is Green light > Red light > Off light.

No.4 : BRIGHTNESS



4 CHALLENGE MODES

Mode 2 Double Rodeo Mode – New Versus Mode (Quad Mode 3x3 ETT Only)

As a 2 player game, players must designate one to shoot green targets and the other to shoot red targets. After Mode 2 is selected, press the [Start Button] to start the challenge. Following a 3 second countdown, two ETT targets will randomly appear simultaneously. One will display a flashing green light, and the other will display a flashing red light. Only the first target hit from this pair will register. If the green light target is hit first, it will remain lit with a green light; if the red light target is hit first, it will remain lit with a red light. The other target will then deactivate.

This mode continues to cycle until one color has been hit 5 times, at which point that color wins.

**If both colors have been hit 4 times and only one target is left flashing, priority will be given to the color that was hit 4 times first in terms of display and response. The other color will be displayed secondarily. Please pay attention to determine which light was hit first; the light that remains lit signifies victory for that color.

Mode 3 Search & Destroy Mode

After Mode 3 is selected, press the [Start Button] to start the challenge. In this mode, the ETT will light up green and emit sounds. When shot the sound will stop, ETT turns red, and target switches to another ETT in a random order. This mode is suggested to set up with multiple linked up ETTs and placing them in random locations for shooters to “search and destroy”.

Mode 4 Practice Mode

After Mode 4 is selected, press the [Start Button] to start the challenge. In this mode, entire ETT will light up green and be ready to receive shots. When shot the ETT will turn red and emit a sound. If the range is set up with multiple ETTs, the last ETT will flash red three times to signal this challenge is over. This mode is suggested in any style of competition when shooters can easily spot the ETT.

Mode 5 Random Mode

After Mode 5 is selected, press the [Start Button] to start the challenge. In this mode, entire ETT will light up green and be ready to receive shots. When shot the ETT will turn red and one of the other ETTs will light up in a random order. If the ETT has not been hit within 1.5 seconds, then it will turn off and one of the other ETTs will light up in a random order. When the last ETT receives a hit, it will flash red three times and turn off. This mode is suggested in any style of competition when shooters can easily spot the ETT.

M.E.T.

MULTIFUNCTIONAL ELECTRONIC TARGET

WORLD PATENT

SPEAKERS READY!

M.E.T. UNIT

MULTIFUNCTIONAL ELECTRONIC TARGET

M.E.T. unit is the perfect product for personal, military or law enforcement training. This is not an ordinary electronic target you could find anywhere in the market.
The G&G third generation MET has increased sensitivity, 4 LEDs, volume speakers and can be mounted on a wall. An independent power source is not required when linked up to multiple units; linked units will only require one power source. The third generation has 7 game settings (previously 4) waiting to be challenged.

Instant multi-function electronic target for the fairest competition

- ***Immediate:*** Light and sound for immediate and definite display of results.
- ***Fairness:*** Electronic timer can be used all types of shooting competitions.
- ***Environmentally friendly:*** Electronic target is reusable and durable.
- ***Innovative:*** Multiple targets can be linked together to create new shooting modes.
- ***Expandability:*** Can be connected to external speakers.

7 CHALLENGE MODES

1) Competition Mode (default setting)
Press the start button once to select this mode. In this mode, all targets are in stand-by mode with Blue lights on. When the first target is hit, it will turn Red and all targets' light will be shut off. This mode will determine who hit the target first. Press the start button again to reinitiate competition mode.

2) Versus Mode
Press the start button twice to select this mode. In this mode, only the master target is in stand-by mode with blue lights on. After the master target has been hit, it will flash a blue light and count down for five seconds. Once the countdown is done, all targets will turn solid blue. The first target that was hit will turn red for five seconds and game play will be auto reset. The Master target will return to standby mode with the the blue light on and be ready for replay.

3) Search and Destroy Mode
Press the start button three times to select this mode. In this mode, the Master target will display a blue light with the other linked targets in standby mode. As soon as the blue light is hit, the next target will be activated randomly. Once all the targets are shot, the last target will turn solid red for 5 seconds, signaling the end of the round. The unit will auto reset for the next round.

4) Practice Mode
Press the start button four times to select this mode. In this mode, all targets will display a blue light. The target will turn red when hit and the last target will blink red for five seconds, signaling the end of the round. The unit will auto reset for the next round.

5) Random Mode
Press the start button five times to select this mode. In this mode, the shooter will be challenged by locating the target from the sound it makes. The target will display a blue light and constantly make a noise. The noise will stop and the light will turn red once the target has been hit. To set up the game for this mode, targets should be hidden or covered without being seen easily. Shooters in this mode should rely on hearing instead of sight.

6) Hostage Rescue Mode
Press the start button six times to select this mode. This mode is the most difficult mode for most shooters. Red light: Hostile/ Blue light: Hostage. Red light will be turn off after hit. Blue light will stay light up after hit.
In a situation when last target was hit in red light, then the game will restart itself without pressing any button.However, if any target was hit in blue light during the game, then the game will not restart until the push button is pressed again.

7) Time Bomb Mode
Press the start button seven times to select this mode. The initial target will light up in blue. The game starts after the blue initial target has been hit, then targets will begin randomly light up. Each target will only light up for 3 seconds, if the lighted target has not been hit within 3 second time,
then this target will turn in red light and game over.
Timer will stop as soon as the game is over.

G&G ARMAMENT

Switch to semi-auto, hold trigger down for 5 seconds
(NOTE: this will fire one shot),
[BEEP] 3 times then release the trigger to enter the program mode.

Before programming the MOSFET, the magazine must be loaded with BBs and installed into the gun.
After entering the programming mode, setting must be completed within 5 seconds, or the system will exit the program. Entering a wrong command will exit the program.

After entered program mode:

[Default Setting]
Hold trigger down for 3 seconds, continue [BEEP] sound until the trigger released to complete the program.

[Pre-cocking]
Pull trigger twice and hold the trigger on the second pull for 3 seconds, continue [BEEP] until trigger released to complete program.

[3-Round Burst]
Pull trigger three times and hold the trigger on the third pull for 3 seconds, continue [BEEP] until trigger released to complete program. Now full-auto has been programmed to 3-round burst mode.

[5-Round Burst]
Pull trigger five times and hold the trigger on the fifth pull for 3 seconds, continue [BEEP] until trigger released to complete program. Now full-auto has been programmed to 5-round burst mode.

October 2023

4th WORLD CUP CQB SHOOTING COMPETITION

WORLD CUP EXTREME SHOOTING COMPETITION is the largest international Airsoft shooting competition. Organized by G&G Armament and held in Taiwan, G&G has been promoting the competition around the world since 2012, bringing on more countries and competitors with every installment.

70 competitors from 25 different countries qualified for the Third World Cup Competition in 2019, including the USA, Canada, Chile, Brazil, Mexico, Bolivia, Colombia, UK, France, Germany, Spain, Poland, Romania, Switzerland, Netherlands, Finland, Italy, Denmark, Sweden, Czech Republic, Israel, New Zealand, Hong Kong, Japan and Taiwan.

The 4th World Cup Final was held in October 2023 in Downtown Taipei, Taiwan with a total of 34 teams of 2 from 26 different countries. The week was full of fierce competition but yet followed by an intense sense of comradery that not many get to experience in this sport. We deeply appreciate the support from all the enthusiasts and contestants in attendance, we could not have done it without you all!

ETU SYSTEM

- The G&G Electronic Trigger Unit is Pre-installed in most models, offering faster trigger response while preventing trigger burn outs or a locking gearbox in rapid semi-auto firing.
- Programmable fire mode: switch from full auto to 3-rounds burst by holding down the trigger for 10 seconds while on semi.

G2 ETU

L85 ETU

[ETU AND TRIGGER PROGRAMMING]

- To change full auto to 3-round burst, only trigger and selector switch are required.
- With battery plugged, switch the selector switch to semi-auto and hold trigger for 10 seconds.
- Full auto setting has now been changed to a 3-round burst.
- To reset, repeat step or replug battery.

10 seconds

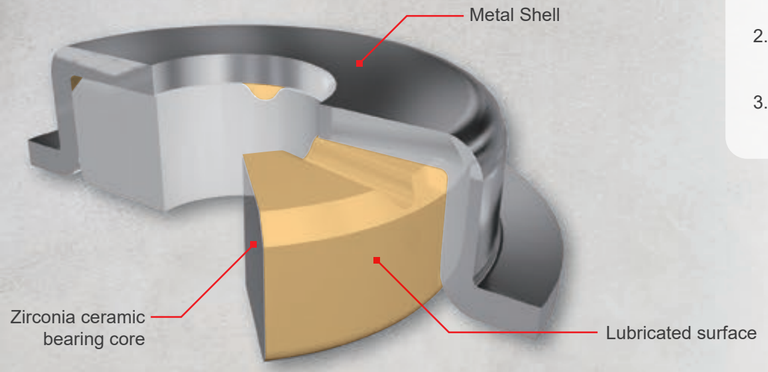
CERAMIC BUSHING



Ceramic material (Zirconia) Features:

1. High strength, wear and thermal shock resistance.
2. Pores of ceramic hold more lubrication than metal bushings.
3. Lower coefficient of friction than other materials (without any lubrication).

Advantage of Ceramic Bearings:

1. High strength against wear or tear in high cycle gearbox.
2. Heat resistance keeps ceramic bearings in shape under extreme working conditions.
3. Ceramic bearings are self-lubricating, allowing gears to spin freely even without any oil or grease.

G&G ARMAMENT

WORLD CUP

CQB SHOOTING COMPETITION

WORLD CUP EXTREME SHOOTING COMPETITION FINAL

We at G&G would like to show our appreciation to all the airsoft players and businesses who put their confidence in our brand. We are proud to announce the Customer Reward Program as token of our gratitude to G&G supporters worldwide.

ENTRY DETAILS

Every new G&G Airsoft gun comes with an official G&G gun tag. Found on the back of the tag are two sets of numbers: a serial number and an authentication code hidden behind a scratch-off silver coating. Register both numbers online (guay2.com/lucky or scan the QR code) for a chance to win a G&G gun on us! A winner is chosen every month, with one grand prize winner chosen at the end of the year!

If you have any questions regarding terms and conditions, please contact us via: support@guay2.com

PRECISION · ACCURACY · INNOVATION

G&G Armament's Patented Hop-Up Chamber Design

Please go to P.011 for more details.
