GC16 PREDATOR

EGC-16P-PTR-BNB-NCM

Programmable fire mode between full auto and 3-round burst by holding down the trigger for 10 seconds.

Electronic Trigger Unit (E.T.U) is programmable to a 3 round burst. The E.T.U. is designed to give the player a faster trigger response and prevent trigger burns.

6 position crane stock with large battery compartment and newly designed rubber padding for extra comfort on shouldering.

Pre-programmed MOSFET chip to stop over-discharge.
